

## FLOOR PLAN FORM

Please Fill In & Clearly Label The Grid To Properly Represent The Floor Plan You Wish To Enjoy.

**Suggestion A**

**Suggestion B**

### - Layout Tips

- Placing tables between the DJ and the dance floor hinders the interaction with guests.
- If Possible, arrange for elderly guests to be seated away from the DJ's loud speakers.
- A dance floor positioned in the center of the room is more inviting.
- Try to keep all entertainment (Photo Booth, Candy Bar, etc.) in the main room.
- A 15'x15' dance floor is ideal for 50-75 guests. Add 2'-3' in length & width per every 20-25 additional guests.
